PROFESSIONAL SUMMARY

Full Stack Developer with experience building production-ready web and mobile applications using React, Next.js, and Node.js. Strong in REST API integration, serverless architectures, CI/CD, and responsive UI development. Experienced working in startup-style environments, delivering MVPs and scalable products end-to-end using modern cloud platforms.

EDUCATION

B.Tech, Computer Science — SSGBCOET Bhusawal (DBATU)
CGPA: 9.01

July 2024

SKILLS

Tech: React.js, Redux, Redux Toolkit, Next.js, React Native, JavaScript (ES6+), Typescript, HTML5, CSS3, RESTful APIs, Responsive Design, Node.js, Cross-Browser Compatibility, Material UI, Express, MongoDB, PostgreSQL, Redis, Docker, AWS, Cloudflare, Supabase, Git, Github, RapidAPI, YouTube Data API v3,

Soft Skills: Collaboration, Communication

Languages: Fluent in English, Hindi, Marathi

EXPERIENCE

Infinity Enterprises
Software Developer

August 2024 - Present
(Contract, Remote)

- Architected a full-stack e-commerce platform (Next.js web + React Native mobile) with responsive, cross-browser UIs.
- Implemented serverless RESTful APIs on Cloudflare Workers (D1 + Drizzle), Zod validation, Supabase storage, and Git-based automated builds/deployments.
- Building MVPs and new apps/products end-to-end — designing front-end architectures in React/Next.js, integrating APIs, and iterating from prototype to production.
- Leverage AI-powered coding assistants (Claude Code, TRAE / trae.ai, Cursor, Cline) and Google Gemini to accelerate development, generate boilerplate, and assist with debugging and rapid prototyping.

PROJECTS

VidVortex [Live Demo](#) | [Github](#)

Oct 2024 - Feb 2025

- Developed a dynamic YouTube clone using React and Material UI, featuring responsive and interactive UI components.
- Integrated YouTube Data API v3 (via RapidAPI) to fetch real-time videos, search results, and recommendations.
- Implemented smooth video playback and adaptive layout for seamless experience across devices.

Health Stack App. [Github](#)

Feb 2024 - May 2024

- Built a health platform UI (Figma) with Vue.js, Vue Router & Vuex; implemented JWT auth and scalable Express APIs.

CERTIFICATIONS

- [100 Days of Web Development \(Udemy\)](#)
- [NPTEL Programming with JAVA \(77%\)](#)

ACHIEVEMENTS

- Web Spark Web Development Competition (Godavari College Jalgaon 2023) - **Winner**
- **First Rank** in Final Year of B. Tech.
